### **DETAILED ACTION**

Claims 8-15 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no *allowable* generic or linking claim. Election was made **without** traverse in Paper No. 5.

### Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-5, 22, and 16-21 are rejected under 35 U.S.C. 102(b) as being anticipated by

Emery '673.

Emery '673 discloses a holder for elongated members (6) whereby the holder comprises first (30) and second (5) generally parallel (in the horizontal direction - see Figure 3) rails defining crossbars that are vertically (middle to right in Figure 3) and horizontally offset (top to bottom in Figure 3) from one another thereby forming an opening (see Figure 3) whereby the elongated members (6) are received and supported in a *generally* vertical orientation; and the rails (30 and 5) have *generally* opposed edges for contacting the member (6) when inserted therein; each of the rails (30 and 5) comprise at least two depressions (32 and 16, respectively) formed *along* the opposed edge thereby restricting movement of the member (6); and the holder further comprises *generally* horizontally disposed means, defining a base plate (8) for supporting a lower end (see Figure 1) of the elongate members and two end plates (at 35) attached to side edges of the lower crossbar whereby the base plate is attached to the end plates (35). Emery '673 is considered to disclose the structure capable of performing the method steps of providing rails vertically and horizontally offset from one another, forming at least two depressions on the edge of each of the rails and inserting an elongated member between the rails so that the member is

held by the depressions in a generally vertical orientation and supported below by a *generally* horizontally disposed means defining a base plate.

# Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 6, 7, and 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Emery '673 as applied to claims 1-5, 22, and 16-21 above, and further in view of Pushee '631.

Emery '673 discloses the holder as advanced above.

The claims differ from Emery '673 in requiring end plates attached to side edges of the crossbars, i.e., both.

Pushee '631 teaches that it is old in the art to have end plates (4 and 5) attaché dto the side edges of a pair of crossbars (11 and 15).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to have provided the holder of Emery '673 with end plates for increased securement of items placed therein and increased stability of the holder.

## Response to Arguments

Applicant's arguments with respect to claims 1-5 and 16-20 have been considered but are most in view of the new ground(s) of rejection. The new grounds of rejection were necessitated

Application/Control Number: 09/757,255

Art Unit: 3634

by the amendment reciting "generally horizontally disposed means... between the rails" in lines 5-6 of claims 1 and. It is noted that while the Emery '673 reference was previously utilized against claims 1-5 and 16-20 the incorporation of the afore-mentioned limitation changes the scope of the claim and hence the *grounds* of rejection.

#### Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
